

Complete each congruence statement by naming the corresponding angle or side.

1) $\triangle DFE \cong \triangle LMN$

$\overline{DF} \cong ?$

2) $\triangle CDE \cong \triangle CDZ$

$\angle E \cong ?$

Write a statement that indicates that the triangles in each pair are congruent.

3)

4)

5)

6)

7)

Answers to

1) \overline{LM}

5) $\triangle NML \cong \triangle WXL$

2) $\angle Z$

6) $\triangle SUT \cong \triangle SUE$

3) $\triangle FGH \cong \triangle QRH$

7) $\triangle HFG \cong \triangle FHV$

4) $\triangle JKI \cong \triangle JUV$
